PROFESSIONAL SUMMARY

B.Tech student in Artificial Intelligence and Data Science with strong expertise in Frontend Development and using ReactJS, JavaScript, HTML, and CSS and Mobile app Development. Experienced in building responsive, user-centric web and mobile applications with modern UI/UX practices. Passionate about creating scalable and interactive interfaces, and eager to contribute to real-world projects through opportunities.

EDUCATION

B.Tech – Artificial Intelligence & Data Science	M.Kumarasamy College of Engineering, Karur	Oct 2023 – Present	GPA: 7.27
Higher Secondary Education (12th)	Vidya Mandir School	May 2022 – May 2023	

TECHNICAL SKILLS

Frontend	ReactJS (Vite), HTML, CSS, JavaScript, Bootstrap, Tailwind CSS
Languages	JavaScript (Intermediate), Python (Basic), C++, Java, SQL (Intermediate)
Build Tools	Firebase, v s code, Hostinger, Netlify
Backend / AI	FastAPI, RAG, Gemini AI, Claude AI, SentenceTransformers, Uvicorn, Node.js, MongoDB.
Soft Skills	Problem Solving, Strong Communication, Teamwork, Accountability

PROJECTS

FRSChatbot — AI-Powered RAG Chatbot

React (Vite), Tailwind CSS, FastAPI, Python, Claude AI, SentenceTransformers

- Built a chatbot converting FRS documents into an interactive query system using Retrieval-Augmented Generation (RAG), eliminating hallucination by grounding every response in source documents.
- Developed responsive React frontend with stateful and stateless components; integrated FastAPI backend with SentenceTransformers for semantic document retrieval.
- Implemented Tailwind CSS architecture with reusable component structure for scalable UI development.

POS - Mobile Application (point of sale)

React 18, vite, tailwind css, mui, node.js, mongoDB, capacitor(Android), jwt, pwa.

- CounterCraft POS is a full-stack retail system with real-time barcode scanning, automated inventory tracking, and secure multi-user role management.
- It features a UPI payment gateway with QR code generation, offline-first mobile support with native Android integration, and automated data sync with thermal printing.

INOUT Fashion Catalogue – Full Stack Web App

- Developed a full-stack catalogue website for a real wholesale fashion client using React and Node.js.
- Integrated PostgreSQL (Neon) and Cloudinary for product and image management.
- Deployed frontend on Netlify and backend on Hostinger.
- Built REST APIs and handled production configurations (CORS, environment variables)

EXPERIENCE

Cloud Computing Intern — ZYLO TECH

July 2025

- Deployed and managed applications across cloud platforms; gained hands-on experience with cloud infrastructure tools supporting scalability and uptime.

CERTIFICATIONS

NPTEL — Ethical Hacking

NPTEL — Industry 4.0 and Internet of Things

IBM Cognitive Class — Data Science Tools

IBM Cognitive Class — Data Analytics with Python

IBM Cognitive Class — SQL and Relational Databases 101 **IBM Cognitive Class** — Statistics 101

AWARDS & ACTIVITIES

- **4th place** in a college Hackathon — rapid prototyping and problem-solving under time constraints.
- **Coordinator** of the Fine Arts Club — managed event planning and cross-team collaboration.
- **Event Organizer** — planned and executed cultural programs, fostering campus engagement.
