Professional Summary

Final year B.Tech student in Artificial Intelligence and Data Science with strong expertise in Frontend and Full Stack Development using JavaScript, HTML, CSS, and Node.js. Experienced in building responsive, user-centric web and mobile applications. Passionate about creating scalable and interactive interfaces, and eager to contribute to real-world projects through opportunities.

Education

M.Kumarasamy College of Engineering, Karur
B.Tech – Artificial Intelligence & Data Science

Oct 2023 – Present
GPA: 7.27

Vidya Mandir School
Higher Secondary Education (12th)

May 2022 – May 2023

Technical Skills

Frontend: HTML, CSS, JavaScript, React

Languages: Java, SQL

Backend : MongoDB, REST APIs, Firebase

Build Tools: VS Code, Hostinger, Netlify, Git, GitHub, Vercel

Soft Skills: Strong Communication, Teamwork, Time Management, Problem Solving

CRM/Cloud: Salesforce, Salesforce Administration

Projects

POS – Mobile Application (Point of Sale)

github.com/harish200522/POS-System

React 18, MUI, Node.js, MongoDB, Capacitor (Android), JWT, PWA

- CounterCraft POS is a full-stack retail system with real-time barcode scanning, automated inventory tracking, and secure multi-user role management supporting 3+ user roles. Features a UPI payment gateway with QR code generation, reducing payment processing time by 50%; implemented offline-first mobile support with native Android integration and automated data sync with thermal printing.

INOUT Fashion Catalogue – Full Stack Web App

github.com/harish200522/catalogue

HTML, CSS, JavaScript, React, Node.js, PostgreSQL (Neon), Cloudinary, REST APIs

- Developed a full-stack catalogue website for a real wholesale fashion client handling 100+ product listings – sole developer responsible for entire frontend and backend. Integrated PostgreSQL (Neon) and Cloudinary for product and image management. Deployed frontend on Netlify and backend on Hostinger with proper CORS and environment variable configuration. Built REST APIs with complete CRUD operations and handled production configurations.

Certifications

- NPTEL – Ethical Hacking (2024)
- NPTEL – Industry 4.0 and Internet of Things (2024)
- IBM Cognitive Class – Data Science Tools (2024)
- TCS iON NQT – IT (June 2026): Advanced Quantitative 83.83%, Verbal Ability 83.4%, Programming (Java) 70.89%, Overall Cognitive 59.19%

Awards & Activities

- 4th place in a college Hackathon – rapid prototyping and problem-solving under time constraints.
- Coordinator of the Fine Arts Club – managed event planning and cross-team collaboration for 200+ students.
- Salesforce Platform & Administration Training – MentorCrew
Salesforce Platform fundamentals, CRM, Salesforce Administration, data management, security, automation, reports and dashboards.

Areas of Interest

Frontend Development, Full Stack Development, Machine Learning, Data Science, AI, Cloud Computing
